

Geoff Norton – Brief Curriculum Vitae

Geoff Norton is currently Adjunct Professor at The University of Queensland (UQ), Brisbane as well as a Director of the software development company - Identic Pty. Ltd., a spin-off company involving staff initially based at UQ. Previously Geoff was Director of the Centre for Pest Management, Imperial College, University of London (1984 – 1992); Director of the Cooperative Research Centre for Tropical Pest Management, CSIRO, Australia (1992 – 98); and Director of the Centre for Biological Information Technology at UQ (1998 – 2012).

The overall theme of Geoff's research over almost 50 years has been at the interface of socio-economics and ecology. This lead to the development and worldwide application of systems analysis, stakeholder involvement processes, and the development of decision support tools for addressing specific resource management problems, especially decisions involving crop protection issues.

Geoff has published over 100 journal articles, books and book chapters in this field and is currently President of the International Association for the Plant Protection Sciences (IAPPS)
